

An outdoor shower area with a wall made of small, rectangular, multi-colored recycled glass tiles. The shower is framed by dark wood slats. A brass showerhead and two circular wall jets are visible. The floor is covered in light-colored pebbles. To the right, a wooden bench holds folded towels, and a towel rack with a blue towel is mounted on the wall. Lush green plants and a palm tree are visible in the background.

Nature's Geometry, Reimagined

GEO JUNGLE

RECYCLED GLASS

RECYCLED GLASS

On the cover: **GJL/M12TRAP** Trapezoid Mosaic Matte

Geo Jungle is where the tropics meet geometry. This recycled glass mosaic collection draws inspiration from the lush, layered world of colorful flora and jungle greenery, channeling it through a geometric lens. Geo Jungle reflects the abstract shapes of tropical plant life, the suggestion of colorful climates, and the energy of something as lively and unexpected as nature itself.

Three distinct shapes carry the collection: Offset Squares, Trapezoids, and Hexagons. Each brings its own energy. The Offset Squares tumble and stack in a rhythm that feels both spontaneous and intentional. The Trapezoids cut across the composition with purpose, adding a sharp, directional energy that keeps the pattern moving. The Hexagons are rooted in the natural world: honeycombs, turtle shells, the cross-section of a stem, compositions rooted in something familiar and organic.

Rendered in varying hues of green, blue, pink, mauve, and taupe on recycled glass, Geo Jungle is undoubtedly decorative. It is right at home in a splash-soaked outdoor

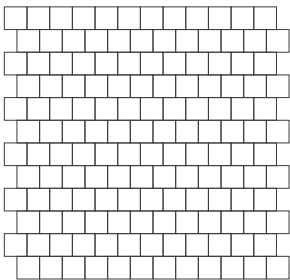

shower in a West Indies-inspired villa, a powder room that stops guests in their tracks, or a pool niche that makes the water look even more inviting.

Geo Jungle is designed to complement other collections. Pair it with concrete field tile for a shot of color against cool, calm neutrals. Layer it with chromo finishes and colorful tile for a rich, resort-worthy moment. Mix it with wood-look tile for that open-air, indoor-outdoor ease that makes a space feel like a permanent vacation.

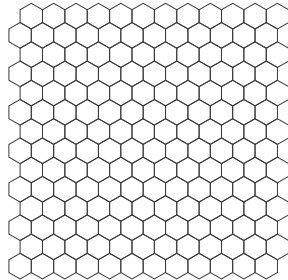

This collection is made from 100% recycled glass content. It is appropriate for most residential and commercial interior, dry and wet applications including walls, countertops, backsplashes, and floors. It is also suitable for exterior wall applications.

Geo Jungle is for the spaces that refuse to be forgettable. Wherever it lands, it brings color, pattern, and a little bit of paradise.

	V3 Moderate Variation

Typical Uses

Geo Jungle recycled glass tile is appropriate for most residential and commercial wall, countertop, and backsplash applications.

Notice: Not all flooring products are suitable for wet areas, specialized applications, or commercial use. Please refer to the American National Standard Specifications for Ceramic Tile (ANSI® A137.1) for ceramic, stone, and glass installation for specific usage and installation information.

This Florida Tile product will contribute to USGBC LEED® points and the ANSI® approved NAHB® Green Building Points.

Notes

Color, texture, and finish variations may occur due to the nature of the product.

Color reproductions in this printed piece may vary from actual tile colors. Final selection should be made from actual tile samples.

Country of origin and other product features and characteristics are subject to change due to manufacturing efficiencies and other factors. See retailer or product packaging to verify country of origin and other product characteristics.
