Where Ancient Skies Meet Modern Stone —

Lunar White 3D Plus 24x48

ECLIPTA

COLOR BODY PORCELAIN

Stone Look

Long before telescopes traced the heavens, the people of Matera stood beneath the celestial sky and gazed above in awe and reverence. In the ancient town carved from limestone cliffs, where cave dwellings merged with stone to create one of the world's oldest continuously inhabited cities, they watched the night sky. They bravely wondered. As darkness fell, their oil lamps flickered to life across the Sassi's terraced hillsides, creating what the 12th-century historian al-Idrisi described as a miraculous inversion: a starry sky beneath their feet, the twinkling lights mimicking the ones they saw in the sky above.

This was Italy's relationship with the cosmos: intimate, reverent, searching. From these ancient observations, centuries of astronomical inquiry would be born. From Galileo's revolutionary telescopic discoveries to Giordano Bruno's vision of an infinite universe, the Italian spirit has always reached skyward, seeking to understand the polarity of light and dark that governs our physical and spiritual universe. It is here, at the intersection of ancient architecture

and astronomical wonder, that Eclipta by Florida Tile emerges as a modern interpretation of Italian stone and astronomical inquiry. It is a collection born from the question those ancient observers in Matera asked when they looked at the stars: *How do we replicate this cosmic beauty here on Earth?* Florida Tile answers this with Eclipta, inspired by the ever-changing moon.

Eclipta color body porcelain tile is appropriate for most residential and commercial interior, dry and wet applications including walls, countertops, backsplashes, and floors. It is also suitable for exterior wall applications. Made in the USA at our Green Squared® certified Advanced Manufacturing Center in Lawrenceburg, KY, it includes pre-consumer recycled content and is GREENGUARD® and Porcelain Tile certified. Incorporated into the tile surface is Microban® antimicrobial technology that works continuously to inhibit bacteria growth, improve visible cleanliness, and reduce odors.

A Porcelain Stone that Remembers the Sky

In our homes today, Eclipta is a bridge between the cosmic and the personal. It transforms walls and floors into living surfaces that shift throughout the day, responding to light from every angle. Each installation embodies the timeless truth that has shaped human understanding across all cultures and throughout time: that shadow gives light its meaning; darkness makes illumination sacred, and, paradoxically, that polarity is unity. Created with the same courageous, curious Italian spirit that inspired great astronomers, Florida Tile presents Eclipta as proof of our most ancient desire to reflect the celestial sky into our lived experience on Earth, reminding us that we remain connected to those first observers who stood on Matera's stone terraces thousands of years ago and wondered in awe at the heavens above.

Eclipta Collection Tile Finishes

3D

Florida Tile is excited to introduce a new finish called 3D. Using advanced dry-fix technology, this surface achieves a remarkably realistic texture.

This finish features a digital application of a uniform adhesive substrate, followed by a thick layer of dry glaze, also known as micro-grits. These elements work together to precisely synchronize with the underlying graphic.

This precise application of dry glaze granules creates a structure that mirrors the design beneath it, resulting in a visually sophisticated surface with rich, tactile depth.

3D Plus

Building on the initial dry glaze application from the 3D finish, the tiles undergo a precision polishing process. Specialized polishing heads gently grind the surface, refining the glaze to achieve a smooth, balanced finish while preserving the depth of the original texture.

Following polishing, a nano-treatment is applied to enhance the desired level of gloss. This final step not only elevates the visual appeal but also improves performance, making the surface highly resistant to stains and aggressive cleaning agents.

Eclipta

Porcelain Technical Data Properties (Floor)	Results ¹
ANSI® A326.3²	3D 3D Plus Interior, Wet Plus (IW+)
Surface Hardness	7 Mohs
Break Strength	≥ 400 lbf. avg.
Water Absorption	≤ 0.5% ³
Intended Use⁴	Residential & Light Commercial

¹ Values are offered in good faith as being accurate and typical of normal production. Due to the natural variation of raw materials and manufacturing processes, the values of the purchased product for any particular installation may vary.

² For more information, visit floridatile.com/productuseclassifications.

³ Average production value.

⁴ Please visit www.floridatile.com/intended-use for further details.

Typical Uses

Eclipta color body porcelain floor and wall tile is appropriate for most residential and commercial wall, countertop, backsplash, and floor applications.

Notice: Not all flooring products are suitable for wet areas, specialized applications, or commercial use. Please refer to the American National Standard Specifications for Ceramic Tile (ANSI® A137.1) for ceramic, stone, and glass installation for specific usage and installation information.

This Florida Tile product will contribute to USGBC LEED® points and the ANSI® approved NAHB® Green Building Points.
